Israel's livestreamed genocide in Gaza and deliberate starvation of Palestinians has reached an unimaginable level of cruelty.

This is not a humanitarian disaster, but a political choice. A choice by the Israeli government to use starvation as a weapon of war. A choice that has been enabled by years of international inaction.

Israel's actions throughout the occupied Palestinian territory is a campaign of ethnic cleansing, and still the Australian government offers Israel impunity and platitudes.

International law is clear: states must prevent and punish genocide.

Australia has an obligation to take action to end this genocide, by imposing immediate country-level sanctions, severing economic ties and enacting a two-way arms embargo against Israel.

Australia must stop being a bystander.

Prime Minister: the people demand SANCTIONS ON ISRAEL NOW.
